Hi Dale – I just wanted to check in and see if you’ve had a chance to look at this and whether we can confirm the FY22 workplan & targets. Let me know if you want to discuss at all.

Also, if you could share some potential dates/times for us to bring the group together on the MOU draft that would be helpful. If we could meet before Thanksgiving, I think that would be ideal.

Thanks!
Molly

Subject: FY22 CA targets

Hi Dale – following up from our discussion yesterday, I spoke with our Michigan project officer to confirm what the final workplan commitments are for FY22, and it sounds like it’s up to us to confirm. The most recent workplan I’ve seen is from June 2021, and I had one comment on that. I just came to realize that comment wasn’t shared with you, so I’m sharing now.

EGLE Goal

Based on the FY 2022 federal funding, EGLE intends to achieve the following milestones for EGLE-lead GPRA CA Universe sites:

- Human exposures controlled (CA725) at 2 additional facilities in FY 2022.
- Contaminated groundwater controlled (CA750) at 2 additional facilities in FY 2022.
- Complete construction of final remedies (CA550) at 2 additional facilities in FY 2022.
- Achieve performance standards attained (CA900/999) at 2 additional facilities in FY 2022.
- EGLE commits to achieving as many Ready for Anticipated Use (CA800) determinations as time and resources allow. Staff will determine if a GPRA facility meets the U.S. EPA’s definition of RAU, and if it does, they will complete the U.S. EPA’s RAU form and coordinate with the U.S. EPA to ensure that the achievement is entered in RCRAInfo. EGLE will provide periodic updates to the U.S. EPA on RAU progress.

[comment: Similar to FY21, EPA requests a commitment in the number of RAU (CA800) determinations for the year. In FY21, EGLE has aligned their 800 achievements with their CA900/999 achievements, maybe that could work again in FY22/23.]

Can you take a look and let me know if there is an updated version of the workplan you’ve been working with or if these commitments are the same as your understanding? We can confirm we’re on the same page as far as the commitments go and make sure the workplan reflects our common understanding.

Thanks,

Molly
